

# Dan Beightol's (Becktol) SUN COAST REAL ESTATE 4th Qtr 2017 NEWSLETTER

January 2018

Hello, Well, it was a pretty rough ending and start to the new year, to say the least, for Santa Barbarans. Those directly and horrificly impacted by the fires and mudslide, as well as, many businesses affected, literally shut down, in the aftermath.

On another note, for what it's worth: It was Southern California's worst year for inflation since 2008. And housing is clearly to blame. Think what you want about the accuracy of the government's Consumer Price Index, but the ebb-and-flow of this cost yardstick often tells a noteworthy tale. Last year, local inflation rose 2.8 percent in the Southern California region. That CPI jump was up from 1.9 percent in 2016 and the highest since 3.5 percent in 2008, the year the previous economic boom ended. Nationally, CPI was up 2.1 percent in 2017 after rising 1.3 percent in 2016. It's probably a surprise to nobody that rising inflation is linked to the local CPI's "shelter expense" — one measure of what it takes to own or rent and operate a household — which remains at its highest rate since 2007.

Shelter costs in So Cal rose 4.5 percent in 2017. Nationally, shelter expenses rose 3.3 percent last year and 3.4 percent in 2016.
